

Tirra - Support

Support options

As these fonts are distributed at no cost, we are unable to provide a commercial level of personal technical support. We will, however, try to resolve problems that are reported to us.

Before requesting technical support, please **carefully read all the documentation included with the fonts and linked pages on the web site**. The [Resources page](#) is a good place to begin.

Language Software Community

For person-to-person support, visit the [SIL Language Software Community](#), where font developers and users can help each other. These support discussions can also help others in the future.

Reporting bugs and feature requests

If you have a bug to report or a suggestion for how we could improve the fonts, please create an issue in the [Github Akatab project](#) or contact us directly.

Contact form

If the documentation and community fail to answer your question or need further help using the fonts, please contact us using [the form on the Akatab web site](#).
